### **Reports:**

#### Supervisor:

The Supervisor commented on a recent article in the Herald News on the Joliet City Council approving the expansion of the Vulcan Quarry on Laraway Road. He attended the monthly General Assistance meeting with staff and there are a couple of issues which he will address with the Township Attorney. He had discussions with the Joliet Police Department regarding placing a security camera on the Township Building where we pay for the power. This is a request through the Homeland Security where they are placing cameras along a 17 mile stretch of the Sanitary and Shipping Canal. He will follow-up with more information. He attended a pre-construction meeting with the Architect at the City of Joliet for the Animal Control Center remodel project. The City was agreeable with the proposed plans and indicated that there was no need to go before the planning commission. The Supervisor will be requesting a waiver for the permit fees. He and Commissioner Maffeo attended a meeting on the Ridgewood neighborhood water and sewage improvement project. He has attended several senior events over the Holiday. A handwritten note was sent to Marchio Fence thanking them for the donation of fence material for the Zarley Cemetery.

The Clerk reported that she filed the Road and Township Levy, with the County Clerk, on December 9, 2009. She had a meeting with Steve Whitlow of the Secretary of State Local Records Retention for the purposes of reviewing and updating our current retention application. plowing can be performed and the streets will remain safe during the construction period. He will make sure that all of the necessary roadway repairs are performed by the contractor at the completion of the project. He participated in a Quiet Zone Railway meeting with the City of Joliet and Dave Ortiz of CN Railway, where he discussed future road work on Rowell Avenue near the railroad crossing. He learned that the railroad has jurisdiction for the first 7 feet from the outside rail. Three of the staff has received their CDL and all other staff should have them before the end of the year. Hutchinson Engineering has been awarded the work for Phase II and III on the Joliet Street Bridge. He has been working with them on the particulars of the project including the closing of the street. Mr. Burkey commented that he appreciates working with all of the staff and wished everyone a Merry Christmas.

Accountant:

Kim Doglio reported that she organized the open enrollment for insurance with Dean Cass. There are changes in the life insurance program as a result of the new carrier and all employees and elected officials must complete the appropriate paperwork. She reminded the elected officials that they may choose to take additional coverage for themselves or for their spouse or children. She had a meeting with the Highway Commissioner regarding his budget for next year. She is still working with Animal Control on the new software. Trustee Slattery asked if the adopted resolution on employee insurance eligibility applied to elected officials regarding the 37 ½ hour work week. Attorney Burkey replied that the resolution applies to the regular employees of the Township. Trustee Wisniewski asked if the new life insurance option to purchase additional coverage was handled through payroll deduction and the Accountant replied that it must be through payroll deduction. Trustee Wallace asked about how he can increase payments/contributions to the IMRF retirement system and the Accountant replied that she would look into that option and get back to him. Trustee Wallace also had a question regarding the General Assistance denials and what the parameters are for eligibility. The Supervisor and Accountant informed him that the case workers have a review process and based on the applicant's answers, they may or may not qualify.
